

(c) Remarks:

The claims are 10-13 with claim 10 the sole independent claim. Claim 10 has been amended to add the subject matter of dependent claims 14 and 15. Claims 14 and 15 were cancelled.

Claims 14 and 15 were rejected under Rule 112, first paragraph as lacking a written description. The subject matter of claims 14 and 15 has been added to claim 10 and Compound Example 3 of claim 14 and the formula of claim 15 have been corrected to add the indicated methyl groups. Accordingly, the Rule 112, first paragraph, rejection having been met, should be withdrawn.

Claims 14 and 15 were deemed objectionable as being of improper dependent form. Compound Example 5 and the structure in claim 15 have now been amended to delete an inadvertant and erroneous second bond between "Cu" and "O". The objection having been met, should be withdrawn.

Claims 14 and 15 were not rejected over the art of record and claims 10-13 were rejected over art. Claim 10 has been amended to include the subject matter of claims 14 and 15, corrected to overcome the indicated informalities. Therefore, no art rejection is now of record.

This amendment should be entered because it resolves informalities and places the claims in allowable form. Accordingly, the final rejection should be withdrawn, the claims should be allowed and the case passed to issue.

Applicants' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

/Peter Saxon/
